

NEWS

JUNE 2013

We are proud to announce that our software Virtual Universe Pro has been selected as « Solidworks Solution Partner » by Dassault Systems.

You can now find Virtual Universe Pro on the partners products page of the Solidworks website. This approval confirms that Virtual Universe Pro is a relevant solution for automated machines

simulation created from Solidworks and Virtual Universe Pro.

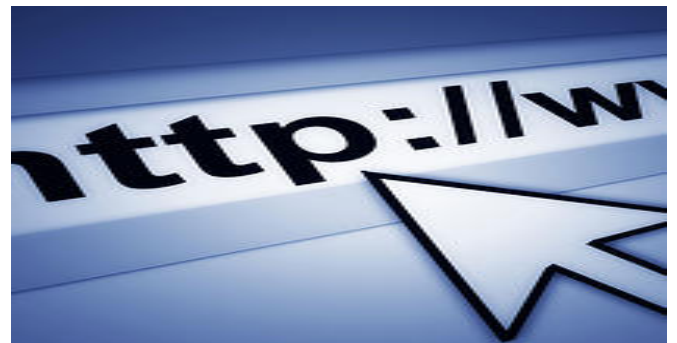

This solution is also supported in France by the Schneider Electric company which propose packages composed by PLCs and Virtual Universe Pro licenses for some formations. More informations :

www.iraifrance.com

Videos showing "end of year" projects in French schools created with the IRAI Software Suite can be downloaded from our website :
www.iraifrance.com « Support / IRAI Software Suite documents » page.

We have the pleasure to inform you that our new website is online.

It is a completely new website with a new access for each product.

The new website can be reached with these URLs:

www.irai.com

and

www.iraifrance.com
